

“Symptom monitoring With Feedback TRIAL (SWIFT) pilot: A feasibility and acceptability study of ANZDATA E-PROMs data capture and feedback.”

- Recruited Project Officer – Ms Kathryn Dansie and qualitative researcher Prof Paul Bennett
- Engaged Consumer representative network through Mr William Handke
- Developed IT platform: Qualtrics survey for tablet-based data collection + built PROMs module within ANZDATA Registry
- Ethics and Governance approval and Clinical Trial Research Agreements for USyd and SAHMRI and 4 sites in South Australia and Queensland
- Baseline and 3 months data collection with feedback to clinicians completed
- 6 month (final) data collection underway as of 11th February 2020
- Protocol and manuscript drafted for qualitative research component

Grants:

NHMRC Project #1159051	Can Symptom monitoring With Feedback to clinicians improve the lives of people on dialysis? (SWIFT)	Morton RL, (CIA) McDonald SP, Jose M, Bennett P, Laranjo L, Palmer S, Caskey F, Couchoud C	\$1,732,011	2019-2023
------------------------	---	--	-------------	-----------

Presentations:

- Morton RL, Handke W. PROMs and PREMs in home dialysis: Lesson from the SWIFT pilot. Home Dialysis Conference, Canberra, 26th February 2019.
- Morton RL, Palmer S, Bennett PN, Jose MD, Dansie K, Brown C, Laranjo L, Jesudason S, Raj R, Hawley CM, Johnson DW, Handke WA, Caskey FJ, Couchoud C, Tong A, Harris DC, Simes RJ, Manns BJ, McDonald SP. The symptom monitoring with feedback trial (SWIFT): A novel registry-based cluster randomized controlled trial among Australian and New Zealand adults on kidney dialysis. 11th Health Services and Policy Research Conference, 4-6 December 2019, Auckland, NZ
- Morton RL. SWIFT: A new ANZDATA registry-based randomized trial of patient reported outcomes for people managed with hemodialysis. NSW Health, Agency for Clinical Innovation 25th October, 2019
- Morton RL, Dansie K, Duncanson E, Jose M, Bennett P, Laranjo L, Palmer S, Handke W, Jesudason S, Johnson D, Hawley C, Harris D, Simes J, Tong A, Raj R, Coiera E, McDonald S. Improving the evidence base for routine use of patient reported outcome measures (PROMs): The Symptom Monitoring with Feedback Trial (SWIFT) in kidney dialysis. ACTA International Clinical Trials Conference 2019, Sydney, 3 - 5 October 2019.
- Morton RL, Jose M, Dansie K, Bennett P, Palmer S, Brown C, Laranjo L, Bennett P, Palmer S, Jesudason S, Raj R, Hawley C, Johnson DJ, Handke W, Caskey FJ, Couchoud C, Tong A, Harris D, Manns B, Coiera E, Tran AD, Simes RJ, McDonald SP. Study protocol for the Symptom monitoring With Feedback Trial (SWIFT): a novel registry-based cluster randomised trial among adults with end-stage kidney disease managed on haemodialysis. Oral presentation. 56th ERA-EDTA Congress, Budapest, Hungary (June 13-16, 2019)
- Morton RL. The SWIFT trial. International Seminar on Renal Epidemiology. Paris, France. 11 June 2019.

- Morton RL. Patient Reported Outcome Measures - a randomised trial called SWIFT. Renal Clinical Network strategy and planning day. Safer Care Victoria. Department of Health and Human Services. Melbourne, 9th May, 2019.
- Morton RL, Jose M, Dansie K, Bennett P, Palmer S, Brown C, Laranjo L, Bennett P, Palmer S, Jesudason S, Raj R, Hawley C, Johnson DJ, Handke W, Caskey FJ, Couchoud C, Tong A, Harris D, Manns B, Coiera E, Tran AD, Simes RJ, McDonald SP. Study protocol for the Symptom monitoring With Feedback Trial (SWIFT): a novel registry-based cluster randomised trial among adults with end-stage kidney disease managed on haemodialysis. (poster) World Congress of Nephrology, Melbourne, April, 2019.
- Morton RL, Jose M, Dansie K, Bennett P, Palmer S, Brown C, Laranjo L, Bennett P, Palmer S, Jesudason S, Raj R, Hawley C, Johnson DJ, Handke W, Caskey FJ, Couchoud C, Tong A, Harris D, Manns B, Coiera E, Tran AD, Simes RJ, McDonald SP. Study protocol for the Symptom monitoring With Feedback Trial (SWIFT): a novel registry-based cluster randomised trial among adults with end-stage kidney disease managed on haemodialysis. 54th Annual Scientific Meeting of the Australian and New Zealand Society of Nephrology (ANZSN), 8–12 September 2018, International Convention Centre, Sydney, Australia
- Consumer / Researcher co-design of PROMs/PREMs education session at Home Therapies Conference, Canberra Feb 2020

Awards:

- **Best moderated poster**, title: Improving the evidence base for routine use of patient reported outcome measures (PROMs): The Symptom Monitoring with Feedback Trial (SWIFT) in kidney dialysis, for the category “Integrating trials into clinical practice category” at the ACTA International Clinical Trials Conference, Sydney, October 3-5, 2019.
